CTC EcoPart 400 accessories

CTC Basic display

The CTC Basic display controls the CTC EcoPart 400 either with a thermostat input or on a fixed return temperature.

When installing more than one heat pump a CTC Basic display is required to address the separate heat pumps.

CTC EcoLogic Pro

CTC EcoLogic Pro is a complete control system that regulates and monitors your entire heating system. The EcoLogic Pro has a touch screen and can control up to 10 heat pumps and 4 weather compensated heating circuits as well as numerous other parts of a system. For more information see the product data sheet.

Art-No: 585331401

Cable Modbus

CTC EcoPart 400 is supplied with a 5 m Modbus cable. A 10 m cable is available as an accessory.
